- ➔ warehouses and storage
- ➔ facilities
- ➔ airports and hangars
- ➔ cold storage units
- ➔ logistic centers
- ➔ parking lots
- ➔ food industry
- ➔ markets and shopping centers

TECHNOLOGY

The basics of our products there are special synthetic polymers. The appropriate selection of technology allows us to combine all elements. It ensures durability, aesthetics and extraordinary strength of our products.

PRODUCT INSTALLATION

We deliver our products in a set with high-quality concrete screws. We are not only a manufacturing company but also offer on-site installations. Our team includes several installation groups.

PRODUCT DELIVERY

Our location in the central part of Europe, along with fast access to transportation, allows us to shorten the waiting time for goods. Our warehouse stocks are prepared for any inquiry. We discuss the largest projects with clients individually.
